

To Airline Operators at Copenhagen Airport - to whom it may concern!

The budget for ACD – Airport Coordination Denmark A/S – has been approved and we are able to keep the charges unchanged for 2025, as follows:

DKK 7,60 per turn-around for runway constraints.
DKK 3,80 additional charge per turn-around for CPH Go.
I.e.Total charge DKK 11,40 per turn-around for CPH Go.

Slot Coordination Charges	2025	2024	2023	2022	2016
Runway constraints (Per turn-around)	Kr. 7,60	Kr. 7,60	Kr. 7,60	Kr. 10,50	Kr. 7,40
Additional charge for CPH Go (Per turn-around)	Kr. 3,80	Kr. 3,80	Kr. 3,80	Kr. 3,80	Kr. 3,80
Runway constraints and CPH Go (Per turn-around)	Kr. 11.40	Kr. 11.40	Kr. 11,40	Kr. 14.30	Kr. 11.10

The slot charge will apply to Copenhagen Airport and the charge will as previously be invoiced on behalf of ACD by Copenhagen Airport A/S as a specific charge per departure in addition to the airport charges.

On top of the amount collected from the operators – Copenhagen Airport A/S will continue; as they have done since 1996 – to finance the other half of the costs.

ACD is a nonprofit company, and we will always be working with estimates of operations for the next 12 months, so please be aware of the fact – that the charges could either increase or decrease over the year.

Best regards

Frank Holton
Managing director
ACD - Airport Coordination Denmark A/S
