

To Airline Operators at Copenhagen Airport - to whom it may concern!

The budget for ACD – Airport Coordination Denmark A/S – has been approved.
As a result of the discontinuation of the shared Nordic Slot Server, we unfortunately have to adjust the price after many years without changes

DKK 8,33 per turn-around for runway constraints.
DKK 3,80 additional charge per turn-around for CPH Go.
I.e.Total charge DKK 12,13 per turn-around for CPH Go.

| Slot Coordination Charges | 2026 | 2025 | 2023 | 2022 | 2016 |
|---|-----------|-----------|-----------|-----------|-----------|
| Runway constraints (Per turn-around) | Kr. 8,33 | Kr. 7,60 | Kr. 7,60 | Kr. 10,50 | Kr. 7,40 |
| Additional charge for CPH Go (Per turn-around) | Kr. 3,80 | Kr. 3,80 | Kr. 3,80 | Kr. 3,80 | Kr. 3,80 |
| Runway constraints and CPH Go (Per turn-around) | Kr. 12,13 | Kr. 11,40 | Kr. 11,40 | Kr. 14,30 | Kr. 11,10 |

The slot charge will apply to Copenhagen Airport and the charge will as previously be invoiced on behalf of ACD by Copenhagen Airport A/S as a specific charge per departure in addition to the airport charges.

On top of the amount collected from the operators – Copenhagen Airport A/S will continue; as they have done since 1996 – to finance the other half of the costs.

ACD is a nonprofit company, and we will always be working with estimates of operations for the next 12 months, so please be aware of the fact – that the charges could either increase or decrease over the year.

Best regards

Frank Holton
Managing director
ACD - Airport Coordination Denmark A/S
